Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact

Briefly describe by section number, the significant provisions of the bill, and any related workload or policy assumptions, that have revenue or expenditure impact on the responding agency.

Section 1 - The Department of Social and Health Services (DSHS) must use the King County classification for the purposes of determining the provider rate in Snohomish County for community residential service businesses. Provider rate means the rate for each tier that is specific to county categories.

Section 2 – If specific funding for the purposes of this Act is not provided by June 30, 2021 in the Omnibus Appropriations Act, this Act is null and void.

II. B - Cash receipts Impact

Briefly describe and quantify the cash receipts impact of the legislation on the responding agency, identifying the cash receipts provisions by section number and when appropriate the detail of the revenue sources. Briefly describe the factual basis of the assumptions and the method by which the cash receipts impact is derived. Explain how workload assumptions translate into estimates. Distinguish between one time and ongoing functions.

A portion of the costs incurred to implement this legislation will be funded with federal Title XIX-Grants to States for Medical Assistance funds.

II. C - Expenditures

Briefly describe the agency expenditures necessary to implement this legislation (or savings resulting from this legislation), identifying by section number the provisions of the legislation that result in the expenditures (or savings). Briefly describe the factual basis of the assumptions and the method by which the expenditure impact is derived. Explain how workload assumptions translate into cost estimates. Distinguish between one time and ongoing functions.
